THE ST. LOUIS STRIKERS. The Judge Puts Their Bonds at

St. Levis, August 2.—Judge Cady, of the court of criminal correction, has decided upon \$3,000 as the bond necessary to release the members of the workingmen's party against whom warrants have issued. It is not probable they can procure so high bail, and they will therefore remain in jail.

Jay Gowld Roughly Assaulted.

New York, August 2.—Jay Gould was this forenoon accosted by Major A. Selever, a friend of Jim Keene, the Californian, white passing through exchange place. Words were excoanged, when Selever struck Gould one or two blews on the side of the head, and then picking him up threw him down the area-way, a distance of eight feet. Gould was rescued by some friends, and was found unsigned with the exception of a few slight bruises. He was able to walk to his office. The trouble is said to have originated from Gould baving betrayed the combination to put up the price of Lake Shore, in which Keene and Selever were interested with Gould. There was considerable excitement on the Stock exchange for a few minutes, as it was rumored Gould had been seriously injured. Jay Gould Roughly Assaulted,

Coal Miners Weaken,

St. Lowis, August 2.—The coal miners of St. Clair and Madison counties, Illinois, have reconsidered their demand of 4 cents per bushel for digging coal, reduced the price to 3 cents, with a guarantee from the mine owners that the rate shall stand for one year. The owners accepted the 3 cent rate, but refused the guarantee, whereupon many of the miners resumed work at 3 cents without the guarantee, and this it is believed all of them will do in a day or two.

The Mend Failure.

Chicago, August 2.—As nearly as can be ascertained the liabilities of J. S. and W. D. Mead, whose failure was announced yesterday, will foot up about \$200,006. The heavy loesers are thought to be Durant & Son sugar refining company, of New York the Calvert sugar refinery of Paltimore, and Harrison, Havemeyer & Co., of Philadelphia. The assets consist of the stock on hand, valued at \$60,000, and of paper, the quantity of which the firm declared their inability to give at present,

Charges Against Architect Clark. Washington, Angust 2.—Charges have been presented against Edward Clark, architect of the capitol, that he received two salaries, one as architect and another as assistant superintendent of the soldiers bome, that he kept a horse, driver and landaulet at public expense, for the use of his family, and that he was extravagant in expenditures and is generally incompetent.

RUSSIANS BADLY WHIPPED AT SOFTSCHA

RUSSIANS BADLY WHIPPED AT SOPTSCHA,
[By Cable to the Cincinnati Commercial.]

London, August 1.—The Bucharest correspondent of the Cincinnati Commercial telegraphs that a great battle is still going on at Softscha. The blow struck at the ninth corps by Osman Pasha, at Pievna, on the 19th of July, was so severe that the eleventh corps, which had reached the river Lom, on the outskirts of Rustchuk, was compelled to countermarch, and te mass as rapidly as possible zeronty miles weat, where they were reinforced by the beaten divisions south of Nikopolis.

Meanwhile the Roumanian division was sent to the garrison at Nikopolis, thus setting free Gen. Schilder's troops.—It was not untily yesterday that the Russians were fully prepared to renew the engagement.—At that time the entire force of the Russians consisted of about 65.000, embracing the ninth and eleventh corps. They were drawn up in three columns on the plain beside the river Vidi, where the troops were exhorted by Gen. Krudener to be brave and retrieve their previous losses.

The order was then given to advance on Seitscha, where Osman Pasha, with fifty thousand men, was entrenched behind hastily thrown-up earthworks. having rejoined the division under Adel Pasha, at that place.—I accompained General Schilder, commanding the ninth division.

Rain was drooping dismally upon the already wet roads, and great embarrassment was caused by the tardiness of the artillery trains, which could only be dragged through the mud with the greatest difficulty.

A bait was made on the heights overlooking Softscha, and riging out upon the spur jutting from the ridge one could see the white tents of the Turkish army herded by the riverside beyond the town, while the long, black low-lying streaks marked the recently constructed defenses. Certainly not a pleasant-looking position to attack, and, indeed, that opinion was expressed by General Schilder, but the attack was brought into position.

The first roar of the cannon was promptly echoed from the Turkish intrenchments, and the

then began the most furious artillery dues, from which our troops did not escape unbarmed, for the Seventeenth and Eighteenth regiments of infantry of the acand garde were swept through and through by iron missiles, piling the dead and wounded in sickening hears together.

In the midst of this the order was given to storm the positions in accordance with the usual Russian tacties. Gallantly the Sollmas Cossacks of the ninth corps rushed to the attack, speeding down the road under cover of a cloud of smoke.

For some time I was unable to distinguish anything in the direction of the town save the white mineral upon the hill. Our infantry advanced with a solid front, and volleys of musketry added to the noise of the cannon, making deafening and continual thunder.

The fighting was for a long time almost hand to hand, the Turks making frequent sorties from behind the shelter of the red cross. The attendants were unable to carry off the weunded, so fearful was the slaughter.

When at last the order was given to retire and the Russian guns gradually ceased firing. I watched the men marching just as grimly snd steadily backward as they marched into the conflict.

It is wonderful what nerve these Russian men of the line possessed, considering the awful decimation of their ranks.

The Turks did net tollow up their success, evidently expecting a renewal of the attack on the morrow.

We have camped in a hollow between three hills for the night. The total loss of the Russiars so lar is not less than three thousand killed and five thousand wounded. I send this by special message to Simniza.

WE shall not hear much more howling about the "southern policy." WHAT about those bids for repairing

the wooden pavements? It seems to take a good while to get them. THE Fort Wayne strikers have gone

to work. We trust the governor's slumbers will be no longer disturbed. THE people of this country do not want a standing army. What is needed

is a stronger militia, or local military GRANDFATHER TAFT WAS not nominated for governor yesterday, and Ohio republicans can congratulate them-

THE Chicago Times, last week, used three hundred and forty-one miles of paper a yard wide, and weighing thirtyone tons. A big thing for an American

paper.

THE way Gen. Eking & Jeffersonville treated a score and old of government employes who petitioned for an increase of wages, is what the late strikers, after the manner of Yellowplush, might call "disgustin' and beastly."

Ir was the grey horse that won at Cleveland yesterday. The Taft-Garfie'd-Matthews interests were not allowed to pull three ways at once on the surface. How is it underneath where the tow-rope is fastened to the next six years in the United States senate?

THE Ohio republicans came up smiling and took President Haves's policy without hesitation. There were no wry faces, or suggestions of boiled crow about it, either. The democratic hopes and predictions that this was to be the dish on which they would disagree are gone glimering.

THROUGHOUT the strike democratic malignancy could not invent any cause of odium to bring upon President Hayes for his attitude. The New York Sun tried it, giving as the princip his incompetency the assertion that Tilden ought to have been president. But then the Sun gives this as a reason for everything it advances nowadays. It is its closing argument in every edi-

DEBT and taxes are what is keeping this country down. We owe at least \$7,000. 000,000, and are paying in interest over \$400,000,000 a year. The amount of taxes taken from the earnings of the people has not been estimated, but it must be enormous. Think of a county like this, where public expenses cost from a million and a quarter to a million and a half each year. Economy in public expenditures would make cheaper taxes, cheaper taxes would make people more prosperous. Yet the pressure is still to increase the outlay in every possible form.

EVERY communist is a traitor to the government he lives under, and should be dealt with accordingly. The promulgation of his doctrine is a sufficiently overt act, and they should be stamped out unhesitatingly. Every communistic meeting should be broken up, and the workingmen, who most of all are interested in the preservation of law and order should be warned against fellowship with such leeches. When it comes to a contest between the elements of society none suffers so much as the workingman, whose income ceases when his work stops.

THERE were fifty-six persons tried for murder in the court of Oyer and Terminer, at Philadelphia in the last ten months. Over one a week. If that state of things existed in a southern city, the bloody shirt fanatics would carry the state at every election for the next quarter of a century. No reason could prevail against the plea of prejudice which would point to fifty-six murderers tried and to the unnumbered many not brought to trial, and say that it was impossible for so many murders to be committed from the bad passions of human nature alone, that political causes must be the motive. There is a chronic condition of murder and outlawery in Pennsylvania that would disgrace South Carolina.

THE Ohio republicans, compared with their political competitors, deserve the respect and support of every law-abiding Buckeye from the lake to the river. The democrats in convention while the labor strike was going on, sat like bumps on a log. Never a word had they to say in deprecation of violence or in sympathy for the workingmen. The republicans yesterday had both. Fine words butter no parsnips and everybody knows how little platform promises amount to, but so far as they go the republicans must be credited. They face the music. They condemn outlawry, they express sympathy with the workingman and suggest methods for his bettering. For both these reasons as compared with the democrats the Ohio workingmen should support the republicans.

VILLAGERS of Chester, Delaware and Montgomery counties, Pennsylvania, met the other day to form a protective association against tramps. The plan proposed provided for a mounted police who should make simultaneous arrests at various points, and for further protection that every resident should be provided with a horn, a watchman's rattle and billy, with colored fires to give signals by night, and blank forms to enable them to send daily reports of suspicious characters seen. Final action was postponed. The meeting got muddled on how far they could go in arresting tramps, a judge in one of their counties having decided that it was lawful to fire at an escaping prisoner, while a judge in another county had held that it was an indictable offense. Then the humanitarian element sprang up. All tramps were not vagrants, times had been unusually hard, they ought to be lifted from their moral degradation, etc., etc. A wide difference of opinion was at once manifest, and the meeting somewhat disgusted with itself broke up, the radicals declaring if philanthropy was brought into the question, although they intended to be just to all, they would never get on. So the days of the tramp in that part of Pennsylvania are not officially numbered. This looks like another small bit of evidence of a confession of inability to deal with existing evils.

It seems singular that a party which boasts that it has thirty thousand majority in a state could not, with the aid of United States troops and offices, carry that state at an election. This refers to Mississippi. The abandonment of the republican organization by the state committee in that state, brings out the above assertion, in republican papers. We do not believe this disorganization, so called, was brought about for the reason given, or for that matter, that it is a disorganization at all. If it is any thing else than a sharp plan for getting help in the future it is a weeding out process. Since President Hayes is putting the element of decency on its feet as the controlling political factor, the political tramps, vagabonds and scoundrels who have ruled the republican party, especially in the southern states, have lost their grip, and this refusal to nominate republican candidates, this abandonment of the state to the democrats, will throw the political manipulators out of employment and will bring about a reaction which at the following election will call for a republican party, and then the clean handed men will have a chance to guide its councils. As a political move it will strengthen the party also. It is a sort of possum policy. The democrats in Missouri tried it in 1870 and the result was a defeat for the republican' organization from which it has not yet recovered.

THE decisive battle in Bulgaria, which has been talked of and looked for since the eastern war began, is reported this morning as a Turkish victory, not a Russian which the world predicted, and which was to end the war or else continue it with other nations figuring in the solution. The Turkish force was 50,000, entrenched. There was an all day onslaught all along the line, an unyielding contest everywhere, the stubbornest fighting, bravery that died in its tracks. The Russians were undoubtedly defeated, to what extent is not yet known. The Turkish account says with a loss of 24,000 men, but this is untrustworthy. A Turkish account the other day defeated the Russians south of the Balkans and this morning we have news that they are bombarding Yeni-Saghra, a style of defeat something like that which John Phnæix inflicted on his adversary. The Roumanian army, it is said, is to move on the offensive in aid of the Russians, and the

Servians are discussing a similar attitude. Whatever the exact state of affairs, which we can not know now, it is evident Russia will need all the help she can get. So far her European campaign is becoming singularly like the campaign in Asia Minor. A series of rapid and brilliant advances to the very core of the enemy's position, then receiving some crushing defeats in quick succession; whether the singularity of retreat will follow we doubt, but certain it is that Russia will never see Constantinople, however thoroughly she whips the Turks.

THE OHIO REPUBLICANS. Their Nominations and Their Plat-

form. The following is the full ticket nominated by the Ohio republican convention at Cleveland yesterday: For governor, W. H. West of Bellefontaine; lieutenant governor, Ferd Voegler of Cincinnati; su-preme judge, W. W. Johnsan of Portsmouth; attorney general, George K. Nash of Columbus; clerk of the supreme court, Dwight Crowell of Ashtabula county;

of Columbus; clerk of the supreme court, Dwight Crowell of Ashtabula county; school commissioner, J. T. Lukens of Portsge county; member of the board of public works, A. W. Lucky.

The following platform was adopted:

The republicans of Ohio, in convention assembled, congratulate the people that during the long term of their control of the affairs of the state no stain has been found upon their record as a party; that their management of local affairs has been true to the moral and industrial igterests of the people, and therefore they confidently point to their past as the best evidence of their intentions for the future on national questions. The republicans of Ohio claim the same fidelity to the right principles and practices that they have exhibited in local and state affairs. Appealing to the determination of the people to maintain republican principles and practices, they offer for the consideration of the voters of Ohio the following platform of principles:

Resolved, That we reaffirm and adopt the platform and resolutions of the national convention at Cincinnati in July 1876.

Resolved, That the republicans of Ohio reaffirm their unfaltering confidence in Rutherford B. Hayes, a statesman, patriot and republican, and cordially approve and support his efforts for the pacification of the country, and the establishment of its civil service upon a basis of purity and efficacy.

Resolved, That we reaffirm as the unalterable purpose of the reculting party to maintain and enforce the provisions of the recent amendments to the federal constitution, guaranteeing the equal rights of all citizens before the law, irrespective of race or color, and to insist upon the full and effectual performance by the federal government in the avontion.

anteeing the equal rights of all citizens before the law, frespective of race or color, and to insist upon the full and effectual performance by the federal government in the execution of all its powers of its constitutional obligations in that behalf.

all its powers of its constitutional obligations in that behalf.

Resolved, That we are in favor of both silver and gold as money; that both shall be a legal tender for the payment of all debts except when otherwise specially provided by law, with coining and valuation so regulated that our people shall not be placed at a disadvantage in our trade with foreign nations, and that both metals shall be kept in circulation as the money of the nation, as contemplated by the constitution, and we therefore demand the romonetization of silver.

Resolved, That we are opposed to any further grants of public lands or money subsidies, or the extension of the public credit of the general government to aid in the construction of railroads.

Resolved. That we are opposed to the re-newal of patchts by act of congress, which are but burdensome and oppressive to the masses of the people, and especially to the laboring

of the people, and especially to the laboring classes.

Resolved, That we view with alarm the present disturbed state of the country, as evidenced by the extensive strikes of the workingmen, and followed by the destruction of life and property in different parts of the country, and while we deprecate each and every resort to violence and disorder, and cordially approve the action of our national and state authorities in their efforts to enforce the supremacy of the law, yet we do most heartly sympathize with the condition of the nonest and industrious laborers who are willing to work but remain unemployed, or are employed at wages inadequate to comfort and em; loyed at wages inadequate to comfort and independence, and as an earnest of our desire to find a remedy for their condition we re-

commend:

Human nature is a beautiful and fragrant thing. If an employer whose profits permit him to employ one hundred men, discharges fifty of them, and doubles the wages of the remaining fifty, all is pleaswages of the remaining fitty, all is pleas-ant in his factory. On the contrary, if he retains the hundred, giving them only the pay of fifty, there is discontent, hard lan guage, perhaps a strike. The man who is willing to have his own pay cut down in order that another man may have em-ployment is dead, and his grave is forty feet deep.

It is estimated that the total or earnings on the railroads where freight business has been suspended, during the strike, has been over one million of dollars per day. Of course it is by no means impossible for employers to crowd down wages below a fair point in the case of certain peculiarly helpless classes who can not "strike" for themselves, and in whose behalf we do not often hear of any one's volunteering to strike. The shop girls and sewing girls of New York might easily make a much stronger showing of a case for public sympathy than has yebeen presented in behalf of any of the special classes which have brought on by their action the present disturbed and disgraceful condition of of affairs in the north and west. If the strikers wish to make the public believe that they are in as bad a case as these poor girls, and are indeed being ground down to starvation rates by soulless corporations, they must give the [New York World,]

soulless corporations, they must give the employed laboring men of the north and west a fair chance to test those rates for themselves. When the railways come to a stand still because their direct-ors cannot find decent and competent men in the open market to run them, the wrongs of the "strikers" will be righted as they never can be by strikes, which may be intended, perhaps, to "carom" on capital, but which are certainly leveled point blank at unemployed labor.

Decrease in the Public Debt.

The debt statement for July shows a re duction in the public debt of \$818,905, which is exclusive of \$500,000 deducted for the estimated expenses for the military establishment. This amount is due, but not paid, and until the appropriation can be made for the army the amount, which will be estimated monthly for expenses for the military establishment, must remain in the treasury. The figures given in that debt statement, therefore, represent the actual reduction for the month.

The Riot at Scranton Yesterday.
At 11:30 yesterday mornin about 5,000 men, armed with clubs and revolvers, forced all the employes of the L, L and C. Company, who had returned to work after a brief strike, to desist. They then proceeded to the car shops of the D. L. and W. railroad, drove the men from their posts and threatened to destroy the car shops and offices. Not satisfied with this they violently assaulted several of the employes, both in the shops and offices, and many of them sustained painful though not serious wounds. VEGETINE.

Necresis, Scrofu'a, Dyspepsia, General Debility,

Canker Humor, Liver Complaint, Rheumatism.

Canaumption of Bowels

Charlestown. Mass, March 25, 1869.

Dear Sir:—The following is a statement of my experience with the Great Blood Remedy, VEGETINE. I have been keeping a boarding house here for many years, and have had the misfortune to have a great deal of sickness in my family. In one case in particular, I noticed the wonderful effect of Vegetine.

About the year 1817, a young man, then lo years old, who was a distant relative of mine, came home from sea. He had injured his left leg on board the ship some months before; and when the ship came into this port he came to my house, being so feeble that he could not go to his home in Lowell. His leæ was swollen above the knee more than twice its natural size, and he was obliged to draw it along after him, having no use of it whatever. The effect of this had reduced him to a mere skeleton. His father came down and employed Dr. Geo. Hayward of Boston to attend him, who then occupied a prominent position in the Massachusetts General Hospital. He pronounced it a bad case of Necrosis; said he must be removed to the hospital, have his leg opened and the bone bored, to allow the discharge of matter there collected; otherwise the leg must be an untated.

and the bone bored, to allow the discharge of matter there collected; otherwise the leg must be amputated.

Not thinking it advisable to pursue this course, and baving used Vegetine, the great Blood Remedy, in the past with so good effect, concluded to try it in this case. After taking it regularly for six weeks, his leg was but little swollen, and his general health so much improved that he did not look like the same person. At the end of five months be went home to Lowell perfectly cured. He remained in Lowell until the commencement of the war, then joined the army, and was pronounced a sound and well man.

The above is but one case out of many where I have seen this Blood Kemedy med with unparalleled success. I have taken it myself for twenty years, more or less, for Dyspepsia and General Debility, and it always appeared to give me new life and vigor.

One lady boarder was completely cured from Canker Humor, after she had suffered for years, and tried almost every thing else without receiving any benefit. Another lady was cured from Liver Complaint, which was a bad case, and so considered by the many physicians who had attended her from time to time.

I had known its use by other boarders for

I had known its use by other boarders for

Thad known its use by other boarders for Rheumatism with extraordinary good effect. A lady took it for Consumption of the Bowels, and found more relief than in any thing else she could procure.

I do not want to over-estimate its usefulness; but I do want those suffering from sickness to know what this good medicine has done and is still doing, for I know what it is to be imposed upon when sick, and I think it is wrong for any one to over-estimate a romedy at the expense of the helploss sick; and I, for one, will not do it, under any circumstances whatever.

AYER'S

Ague Cure,

Forthe speedy relief of Fever and Ague, In termittent Fever, Chill Fever, Remittent Fever Dumb Ague, Periodical or Eilious Fever, etc. and indeed all the affections which arise from malarious, marsh or miasmatic poisons, has been widely used, during the last twenty-five years, in the treatment of these distressing disceases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, orchills, once broken by it, do not return, until the disease is contracted again. This has made it an accepted remedy and trusted specific for the Fever and Ague of the West and the Chills and Fever of the South.

AYER'S AGUE CURECRAGICATE the noxious poison from the system, and leaves the patient as well as before the attack. It thoroughly expelsible disease, so that no Liver Complaints, Rheumatism, Neuralgia, Dysentery or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from miasmatic poison, it removes the cause of them and they disappear. Not only is it an effectual cure, but if taken occasionally by patients exposed to malaria, it will expel the poison and protect them from attack. Travellers and temporary residents in Fever and Ague localities are thus enabled to defy the disease. The general debility which is so apt to ensue from continued exposure to malaria and miasm, has no speedier remedy. For Liver Complaints it is an excellent remedy.

CITY NEWS.

Granville M. Ballard left to-day for a four weeks rest at Oconomowoc.

In proportion to circulation, The News is the cheapest advertising medium that can be found.

Mr. C. S. Donaldson has recently suffered a third attack of paralysis, since when Le has remained speechless.

There will probably be no meeting the state house commissioners until next week. The experts are still in session.

The light infantry evoluted around University square last evening, presenting an intensely soldierly and warlike

npearance.

N. B. Taylor, Esq., who has been sojourning at Grand Haven, Michigan, for the past two or three weeks, will return this evening.

Co. A. National guards, Capt. Kiley's company, will indulge in one of those questionable affairs calld a Sunday pionic, at Lafayette, on the 5th.

People are anxious to save money now. They can do that best by doing their advertising in The News, which is read by more people than any other paper in the state.

Geo. C. Harding, of the Herald, has re-turned from West Baden. He has been bandsomely tatooed by the gnats of that rural retreat, and might readily by mis-

The past officers and counselors association of Indianapolis Jr. Q. U. A. M. was organized last evening with J. E. Dill president; Lou Harlan vice president; Charles Reynolds recording secretary; George M. Disler sentinel.

John Huber escaped from the hospital for the insane day before yesterday, and visited 468 North Alabama street for the purpose of killing his wife, who is stopping there. He was taken in charge by the police and will be returned to the asylum.

The remains of the late W. W. Northro may be seen by frie nds to-day, at the Occidental botel. His wife arrived from New York last evening. The funeral services were to be held at Grace Episcopal church this afternoon, at 5 o'clock. The body will be taken to Cleveland for interment.

IMPRISONED STRIKERS.

The Fated Fifteen Before Judge Drummond.

To-day's Proceedings in the U. S. Court-Outcault's Eccentricities,

The examination of Darius Crawford, Albert Outcault, Frank Smith, Charles Githens and Pat Dean was continued in the United States court yesterday afternoon until nearly 6 o'clock. Outcault entered a plea of guilty to the charge of intimidating I. B. & W. train men, and in the evidence it developed that he theretaned to brain engineer Young. Frank Smith acknowledged that he was an agent of the grand lodge of locomotive firemen, but denied having taken an active part in the strike here. Several witnesses differed with him on this point, and implicated Crawford and Dean in deeds of lawlessness. No decision was reached by the court. During the confusion attendant upon adjournment Outcault mixed with the crowd, and a minute or two later was seen scur ment Outcault mixed with the crowd, and a minute or two later was seen scurrying down the street and disappearing around the nearest alley corner. His escape was not noticed by the marshal for quite a while, and then a posse of officers started in pursuit, working energetically for several hours to run him down, but without avail. About 1 o'clock he put in an appearance, however, and delivered himself into custody again, explaining as he did so that he had understood Judge Drummond te say that he would excuse him until 9 o'clock this morning. The marshal was relieved of the unpleasant necessity of making an embarrassing explanation. THE WORK TO DAY.

Business was resumed in the Federal court at 9:30 this morning. Gen. P. Pease general superintendent of the I. B. & W., was the first witness examined. Heidentified Patrick Dean, Charles Githen and Darius Crawford as having participated in the detention of the I., B. & W. mail on the morning of the 24th. They wore white badges to distinguish them as members of "the committee." The whole crowd seemed to be acting in concert under the general control of the men of the committee. He detailed the circumstances with particularity and effect, reciting the part taken by the prisoners in the demonstration and implicating several strikers not under arrest. Business was resumed in the Federal

Master of transportation Sherwood con-Master of transportation Sherwood contributed some valuable paragraphs to strike history, photographing the scenes vividly and giving the court a good insight into the lordly manner in which the temporary managers ran things. Brickley was the only one he could name who actively engaged in stopping the operation of the trains. He thought Brickley did not obstruct I. B & W. trains after he was informed that the road was under the protection of the federal was under the protection of the federal

Conductor Smith, of the I. C. & L, narrated his experience in the stoppage of his train. He pointed out Dean as the spokesman of the committee that interfered with his train.

The chiv-siric Brickley secured the passage of lady passengers on the embargoed trains at the request of witness. John Cutsinger, de-pot policeman, saw Frank Smith engi-neering the detention of an I. C. & L train Wednesday morning. On that occasion he cut the train.

George Willis, night clerk of the United States express company at the Union depot, saw Brickley circulating about the depot numerously during the strike excitement; was of the impression that he wore a white ribbon, but was not certain. J. D. Roke, day clerk in the same place, testified that John, Brickley gave him orders to stop moving express matter on the trains, and in compliance thereto po express matter was taken from the no express matter was taken from the office. G. B. Thompson, mail transfer agent, testified to having seen Brickley fooling round a mail car where he had no

business to be.

Henry Russe, coach inspecter I. C. & L., testified he was interfered in the discharge of duty Tuesday morning. Dean forbade him examining any coach save the postal car, and he took possession of witness's

The prosecution rested with Russe's tes-timony, and Brickley, defendant, testified to fifteen years' residence in this city.
At present he was acting as fireman on an I. & St. L. pony. He then gave an innocent and bland-like account of his con-

cent and bland-like account of his connection with the strike.

Mr. Porter observed that the fact that
these strikers desisted from interfering
with the running of the I. B & W. and I.
C. & L. trains as soon as they were cognizant that these roads were in the hands of
receivers appointed by the United States
court, should be recognized as a mitigating circumstance in the offense charged
against the several defendants. To this against the several defendants. To this the court remarked that it would not do the court remarked that it would not do for any one to commit an unlawful act and then say they did not know the agravation of that offense. At any rate in running these railroad trains I am not going to admit any such principle as that. I will allow no man to interfere with the property of this court and then plead in mitigation that he was ignorant that the same was in the possession of this court. this court.

The cases of Mark Miller, Henry McIntire, Charles Watson, Esquire Fitler, and Murphy were then called. These men are charged with interfering with the business of the Logansport, Crawfordsville and Southwestern railroad at Terre Haute. and Southwestern railroad at Terre Haute.

J. B. Claybrook, receiver of the road, on whose affidavit the prisoners were arrested, was put on the witness stand and kept there for half an hour and subjected to stump speech interrogatories from Judge Carlton, of Terre Haute, representing the defendants. He testified in substance to the fact that the men were interested in the strike and chief in control of the mob and the forcible confiscation of railroad property at Terre Haute and the detention of trains. He saw no acts of actual violence, but held conferences with them in which they represented themselves as "the committee" directing the movements of the strikers, and as such authorized to

in which they represented themselves as "the committee" directing the movements of the strikers, and as such authorized to confer with railroad officials and make terms with them on behalf of the strikers. W. R. McKeen, president of the Vandalia, corroborated the testimony of Mr. Claybrook in regard to the conference, and identified the prisoners as members of the strikers' committee. The property of the company at Terre Haute was taken possession of by the mob on Monday and held several days by them. A communication signed by the committee was introduced in evidence, Judge Carlton came at him in that distressing style of special-pleading cross-question for which he is noted, but it did not meet with much favor from Judge Drummond who insists on divesting facts of ornamentation and scrutinizing them in their native nudity. Gen. Cruft arose at the close of McKeen's testimony to explain some points that had been touched upon, but the court remarked that it was perfectly plain to be seen that the mob had possession of the Terre Haute depot for the purpose

of stopping or interfering with the trains, and that the movements of the organized

mob were directed to a committee empowered to speak and act for the strikers. Cruft sat down.

Samuel W. Greyson conducter on the L. C. & S. W. went into details a little more minutely and pointed out J. D. Watson as one of the strikers who had been especially officious in the interuption of trains.

Positively the Last,

Col. B. C. Shaw, who went to Fort Wayne at the request of the governor, to ascertain the exact state of affairs there, has returned. Yesterday morning he held consultations with the railroad officials and representative strikers. The latter were armed and asserted that they would die rather than yield in their demands. They would return to work only on a They would return to work only on a written pledge from the officers of the road that the wages should be restored. The officials stated that they had no auroad that the wages should be ristored. The officials stated that they had no authority to restore the wages, but that they would do everything in their power to secure that end. A meeting of arbitration was then held, but adjourned until afternoon without having accomplished anything. Col. Shaw, before leaving, telegraphed the governor that he did not believe a compromise could be made, and the governor decided to send forces to Ft. Wayne last night, only waiting the return of Col. Shaw before issuing orders Before the colonel's arrival, however, a dispatch was received from the sheriff of Allen county with the information that the strike was over, an agreement having been entered into by which the men were to return to work immediately. Company A, national guards, and the light infantry have, in view of this fact, been mustered out of active service.

A Base Bawl.

Mr. McManus, manager of the St. Louis Browns, was questioned to day regarding the statement made by the Courier Journal that he had endeavored to bribe the umpire. Devinney, offering him \$250 for the two games played with the Louis-ville club. McManus came promptly to the scratch in a vigorous denial of the charge. He said that he knew Devinney and did not want him as an umpire, not considering him a square man. Walsh considering him a square man. Walsh, formerly connected with the Memphis Reds, was the man his club desired to unpire the games but Chapman, of the Gray would not have him. He said that Devinney came to his room and compine conversation. have him. He said that Devinney came to his room, and, opening conversation, said: "Mc, if you get these two games you'll get the championship;" and added: "You bet I won those two games for the Bostons" McManus told him he "hadn't the nerve to win a game for anybody," and said that his club wanted nothing but fair play and "if they don't get it I'll make things so hot for you you'll never umpire another game. I suppose he got scared at this and made a break at me, fearing I would bring a charge against him. That's all. Everybody knows Deviuney to be totally unreliable, but just the umpire for the Louisvilles, as he bends his judgment to suit that club."

The City Hospital.

The hospital board met yesterday after-noon and awarded the contract for buildnoon and awarded the contract for building 315 feet of picket fence, at 29 cents per foot, and 2,100 feet of board fence to S. T. Hensel, at 19 cents per foot, including whitewashing. The accounts for July, amounting to \$900, were audited, and the board adjourned to meet with the allopathic physicians at such a time as they might designate to talk over the proposition to dispense with Dr. Boyd on the visiting st. if. It was expected that the homeopaths would submit a proposal to visit the hospital gratis and furnish their own medicines, but no such offer was made. In this connection it might be well to state that the bospital staff, as originally constituted, is performing its duties just as though there was no Boyd.

A Case of Contempt.

The county commissioners have rendered themselves liable to attachment for contempt in disregarding the decision of Judge Julian in the case of Harvey Brown, an imbecile, whom the court deemed a fit subject for the county asylum, and so decided in a trial held two weeks since, in which the county commissioners were defendants. Brown upon this ruling of the court was taken to the asylum, but Mr. Royster, the superintendent, under instructions from the commissioners turned him out. As the commissioner's court is one of record. this way of doing business, in addition of its disregard of Judge Julian's decision, may occasion this body of imperious ru-ralists trouble.
